Project PHC Maïmonide with Israel - "Security in Distributed Inference".

ETIS is pleased to announce that L. Wang obtained the PHC Maïmonide funding for collaboration with Prof. Y. Kochman of the Hebrew University of Jerusalem, Israel. Their project is titled "Security in Distributed Inference. The project will last for two years. The allocated budget for ETIS in the first year (2019) is 38k euros, which will be used, among other things, to support research visits to Israel, and to host visitors from Israel.
